

VAN MEDEVOORT

**CT360D**

CD TRANSPORT + DAC

**Features:**

- Stereo CD transport with DAC option integrated, to use as CD player
- Equipped with vM Super Clock with low phase distortion and jitter
- Gold plated digital outputs: Q-Link, XLR, coaxial and optical
- Audiophile digital and analog circuitry with low distortion
- Gold plated analog RCA and XLR outputs
- High musical performance for optimal soundstage
- More transport info, see CT360 documentation
- Silver / black finished front plate

The Van Medevoort CT360D stereo CD transport with DAC option is designed to match the vM amplifiers and also to connect on the digital inputs of the external vM DAC's like the DA360 or DA470. The same heavy, rigid housing is used to minimize resonances and mechanical distortion. The CD transport mechanism is mounted on a multiple sub chassis with vibration absorption and an elastic suspension to isolate against acoustic feedback. Only audiophile quality components are used in the power supplies and the digital and analog circuits. The vM Super Clock is placed for perfect timing. Extra control options are available, such as repeat or random play, by using the vM remote control. Next to the digital coaxial RCA and XLR outputs, for SPDif and AES-EBU, there is also an optical output available and even a unique Q-Link. The used D/A chip is the ESS-Sabre.

**Specifications:**

Signal format	16 bit PCM - 44.1 kHz
Disc format	CD, CD-R, CD-RW
Frequency response CD	2-20,000 Hz
Signal to noise ratio / distortion	> 120 dB / < 0.002 %
Channel separation	> 100 dB
Outputs / connectors analog	2 / RCA + XLR
Analog output RCA / XLR	2.0Vrms / 4.0Vrms
Outputs / connectors digital	4 / Q-Link, XLR, RCA + Optical
Digital output	0.5 Vp-p, EBU-XLR 4Vp-p
Power supply	115-230 Volt / 50-60 Hz
Power consumption	10 / 20 Watt, stby / on
Weight	11 kg
Size w x h (h+feet) x d	434 x 88 (102) x 390 mm

Options: vM Silver Cable
